

# Judy Reilly

Judy has been involved in dog sports for over ten years. Originally from Long Island, NY, Judy has always shared her life with dogs and horses. “Tia”, a rescue German shepherd, was her first Agility Dog, (July 1994-Feb 2007). Although she did not gain many titles, Tia was a great teacher for Judy competing in agility and obedience and, at age nine, learned flyball.

“Brodie”, an eleven year old border collie, also competed in agility, obedience and flyball, earning his ADCH in fall of 2003. He is currently semi-retired and is being handled by Judy’s nine year old son, Nicholas.

“Sony”, a six year old border collie, also runs agility and flyball. She earned her ADCH one month after her third Birthday. In 2006 she was a Grand Prix finalist at the USDAA Nationals in Scottsdale, AZ, in the very competitive 22-inch class. She has earned many placements in national and local tournament events.

“Lotus”, a high drive black German shepherd, joined the Reilly crew in May of 2006. Judy spent time building a relationship with Lotus, letting her “grow up” since she was slow to mature.

“Rivet”, born in June 2007, is a female border collie Judy could not say “no” to, even though it meant having two young dogs to train. She has been a wonderful addition to the crew.

In 2003, Judy's love for agility inspired her to become a USDAA judge. As an instructor, she is a proponent of establishing clear, consistent criteria for the dog and handler, using positive methods of reward and reinforcement.
